Unit Owner's Insurance

Each individual unit owner is responsible to maintain a unit owner's insurance policy to insure all personal property contained within the unit and the personal liability of the unit owner. At least **\$25,000 of Coverage** should also be included to provide primary insurance protection for damage claims to the unit that are less than or equal to the deductible of the Association's master policy. Also suggested is at least \$25,000 of Loss Assessment coverage and \$25,000 of Water Sewer Backup coverage. The purchase of a Condominium Unit Owner's or Homeowners Form 6 policy will provide this type of protection.
